Accounting professional and full-stack AI builder with a master's degree and 10+ years across small-business accounting and enterprise operations. Independently run the full accounting function of a small business; built accounting systems from scratch, automated reporting and incentives for 15 sales representatives, and reviewed and reconciled 100+ daily invoices. Develop and deploy complete AI applications.

CORE SKILLS

Accounting	Full-cycle accounting, accrual-basis financial statements, revenue/expense recognition (US GAAP and IFRS principles), accounts payable/receivable (A/P, A/R), general ledger (GL), bank reconciliation, year-end close, tax reporting
Financial operations	Cash flow monitoring, payroll and insurance processing, inventory variance analysis
Excel & reporting	PivotTables, VLOOKUP, SUMIF, formula-driven reporting, performance scorecards, incentive calculations, Copilot
Financial analysis	Sales and revenue forecasting, KPI and variance analysis, customer purchase trends, route/product analysis
Accounting systems	Holu, Sepidar, custom ERP/accounting systems, chart of accounts and customer setup, ERP implementation, POS
Applied coursework	Power BI and QuickBooks: hands-on coursework and academic use
AI & automation	Agent orchestration, tool calling, human-in-the-loop workflows, prompt engineering, Claude Code, OpenAI Codex
Development	AI-assisted full-stack development, SvelteKit, TypeScript, API integration, databases, Vercel, CI/CD, UI/UX
Languages	English (fluent), Persian (native), Arabic (basic)

PROFESSIONAL EXPERIENCE

Independent Full-Stack AI Developer | Independent Projects | Dallas, TX | Jun 2026 - Present

- **Rowbot:** Built and deployed a **full-stack document-to-Excel app on Vercel** with SvelteKit/TypeScript, Mistral OCR and OpenAI models. Added LangGraph/Deep Agents planning, tools, audit subagents, human review and persistent state, with source-linked multi-sheet exports and arithmetic checks.
- **FirmScope:** Orchestrated AI-assisted research and data processing to assemble **651 observations from 71 primary sources**. Designed custom interactive visualizations, linked evidence, a 3D office atlas and a 26-scene narrated tour for Big Four analysis.
- **Verity:** Built a **custom agent harness with real-time voice over WebRTC**, integrating OpenAI models, tool execution, federal-regulation retrieval, citation verification and document highlighting.
- Apply daily self-directed AI study to deployed applications; publish source code, evidence and checks.

Sales Specialist | Dillard's | United States | Feb 2025 - Jun 2026

- Earned recognition for **typically exceeding $2,000 in daily sales against a $1,800 target**; increased units per transaction through upselling and cross-selling.
- Completed **Dillard's Home Style Academy** training in home and decor sales.
- Served dozens of customers daily; handled high-volume POS transactions, cash handling, reconciliation and compliance.

PROFESSIONAL EXPERIENCE / CONTINUED

Senior Sales Operations Analyst | Shoniz | Birjand, Iran | 2019 - 2024

- **Reviewed and reconciled 100+ invoices daily, primarily sales invoices**, in the company's custom ERP; helped launch the regional branch.
- Automated **approximately 90% of Excel performance reporting for 15 sales representatives** from pasted data. Calculated target-triggered linear rewards using product sales averages and difficulty-weighted coefficients.
- Analyzed **customer purchases, interactions and activity over time** to inform sales representatives.
- Coordinated **inventory replenishment with the factory**; reported stock availability and shortage risks to sales representatives.
- Reported **route, city and product performance directly to headquarters leaders**, alongside market intelligence, across **88 routes, 11 cities, approximately 100 products and 2,500 active accounts** during **41% year-over-year sales growth**.

Senior Accountant | Esalat Food Distribution Company | Birjand, Iran | 2015 - 2019

- Managed **A/P, A/R and the general ledger**, handling 20-30 vendor and other invoices daily.
- Prepared **accrual-basis financial statements**, including revenue and expense recognition.
- Led **quarterly tax filings and year-end close**; managed payroll and insurance.
- Reconciled bank accounts, analyzed inventory variances and **led warehouse financial audits**.
- Developed **automated sales commission tracking models**.

Accountant & Systems Implementer | Palaz Carpet Store | Birjand, Iran | 2010 - 2015

- **Designed and implemented the store's entire accounting system from the ground up**.
- Managed cash, installment and check-based accounts receivable and payable.
- Administered payroll, insurance compliance, benefits and operating expense tracking.
